

Give-aways, mailing boosters and sustainable customer gifts  **Made in Germany**

KRYPTONIZER® password trainer

Your translator and trainer for cryptic passwords

The perfect advertising medium on the topic of data security

The Kryptonizer invites the user to a playful exchange about data security and sensitises the user to a more for a more conscious handling of passwords.

Individualise the attractive advertising space of the Kryptonizer with your message! The user uses the Kryptonizer regularly for password entries and always carries it with them as a key ring: THAT is certainly your best advertising.
